

DECLARATION
FOR REISSUE PATENT APPLICATION

As the below-named inventor, I hereby declare that my residence, post office address and citizenship is as stated below, next to my name; that I verily believe that I am the original, and first and sole inventor of the subject matter which is claimed in Letters Patent 5,452,352, and for which a **broadening** reissue patent is sought on the invention entitled AUTOMATIC DIALING SYSTEM, the specification of which was originally filed on March 20, 1990, received U.S. Application Serial Number 496,038, now abandoned, was continued in U.S. Application Serial Number 928,163 filed on August 13, 1992, which issued as U.S. Patent Number 5,452,352 on September 19, 1995.

I hereby state that I have reviewed and understand the contents of the above-identified specification, including the claims.

I acknowledge the duty to disclose information which is material to the examination of this application in accordance with Title 37, Code of Federal Regulations, § 1.56(a).

I verily believe the original patent to be fully or partially inoperative, or invalid by reason of claiming less than we had a right to claim in the patent, as explained below.

1. The attorney and/or the inventor failed to appreciate the full scope of the invention. Consequently, the claims included were narrower than the invention disclosed in the patent.

2. During 1997 it came to my attention that the subject matter contained in the patent included much broader patentable subject matter than that claimed in the patent. Neither I nor my attorney appreciated this during prosecution of the original patent.

3. The new claims are broader than the original claims in that they do not include many of the limitations included in the original claims. These claims were overlooked in the original application.

4. The subject matter presented in the newly added claims herein are directed to subject matter which is patentable over the prior art, of which I am aware and which is presently of record.

5. Through error without deceptive intent, I claimed less than I had a right to claim. This error was discovered after the issuance of this patent.

I hereby appoint KENYON & KENYON and William K. Wells, Jr.
